

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

PART 1: Identity of the substance / mixture and company / distributor

1.1. Substance / Mixture identity

Name of the product MAXIMARINE CYL 70

1.2. Relevant identified uses of the substance or mixture and uses advised against Identified uses

Marine Engine Oil.

Uses not recommended Use only for the intended purpose.

1.3. Information of the safety data sheet supplier

Supplier PETROL OFİSİ A.Ş.
Ünalan Mahallesi, Libadiye Caddesi No: 82F Kat: 2-3-4, 34700 Üsküdar / İstanbul Tel: +90 850 339
1919
Fax: +90 216 275 3854
miningiyag@petrolofisi.com.tr

Contact person Customer Service: mineiyag@petrolofisi.com.tr

1.4. Emergency phone number

Emergency phone number Mineral Oil Customer Service: 0850 339 1919 (office hours)

National emergency phone Emergency Health Services: 112 National Poison Information Center (UZEM): 114

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification TC 28848

Physical damages Not classified as harmful

Health hazards Not classified as harmful

Environmental damages Not classified as harmful

2.2. Label elements

Hazard Statements NC Not classified as Harmful

Precautionary statements P401 Store in accordance with national regulations.
P264 Wash contaminated skin thoroughly after handling.
P270 Do not eat, drink or smoke when using this product. P280 Wear protective gloves / protective
clothing / eye protection / face protection. P261 Avoid breathing dust / mist / gas / mist / vapor /
spray. P501 Dispose of contents / container in accordance with national regulations.

2.3. Other damages

No other information is available.

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

SECTION 3: Composition / information on ingredients

3.2. Mixtures

Distillates (petroleum), hydrogen treated heavy paraffinic	40-60%	
CAS number: 64742-54-7	EC number: 265-157-1	REACH registration number: 012119484627-25-0033
Classification Not classified as harmful		
Highly refined mineral oil (C15-C50)	10-20%	
CAS number: -		
Classification Not classified as harmful		
Paraalkylation products with C10-15 branched olefins (rich in C12) derived from phenol, propene oligomerization, carbonates, Ca salts, overbased, sulfurized; distillates (petroleum), hydrotreated, solvent refined / polished, de-clarified, including light / heavy paraffinic C15-C50	1-5%	
CAS number: 68784-26-9		
Classification Aquatic Chronic 4- H413		

The full text of the hazard statements is given in Section 16.

Reviews on the composition

Highly refined mineral oil (C15-50):

Contains one or more of the following EINECS numbers: 265-090-8, 265-091-3, 265- 096-0, 265-097-6,265-098-1, 265-101-6, 265-155-0, 265-156-6, 265-157-1, 265-158-7, 265- 159-2, 265-160-8, 265-166-0, 265-169-7,265-176-5, 276-736- 3, 276-737-9, 276-738-4, 278-012-2.

Contains one or more of the following REACH registration numbers: 01-2119488706-23, 01-2119487067-30,01-2119487081-40, 01-2119483621-38, 01-2119480374-36, 01- 2119488707-21, 01-2119467170 -45, 01-2119480375-34, 01-2119484627-25, 01- 2119480132-48, 01-2119487077-29, 01-2119489287-22, 01-2119480472-38, 01- 2119471299-27, 01-2119485040-48 , 01-2119555262-43, 01-2119495601-36, 01- 2119474889-13, 01-2119474878-16. DMSO contents of some substances are classified by the manufacturer as <3% according to IP 346.

Content notes

See Section 8 for occupational exposure limits.

SECTION 4: First aid measures

4.1. Description of first aid measures

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

Breathing	It does not require any special treatment. Move affected person to fresh air immediately. If symptoms are severe or persistent, seek medical attention.
Swallowing	It does not require any special treatment. Do not try to induce vomiting. If symptoms are severe or persistent, seek medical attention.
Skin contact	It does not require any special treatment. In case of contact with skin, remove contaminated clothing and rinse immediately with plenty of water. Remove contamination with soap and water or a known skin cleanser.
Eye contact	It does not require any special treatment. Remove contact lenses, if present and easy to do. Rinse constantly.
First aid workers preservation	First aid personnel should wear appropriate protective equipment during rescue.

4.2. Most important symptoms and effects, both acute and delayed General

information	Treat symptomatically.
Breathing	Not expected to be harmful if inhaled. Contains petroleum-based mineral oil. Oil vapor may cause respiratory irritation or other pulmonary effects when inhaled by air for prolonged or repeated periods, at levels above the recommended mineral oil vapor exposure limit. Symptoms of irritation to the respiratory tract may include coughing and difficulty breathing.
Swallowing	There are no specific symptoms known. There are no
Skin contact	specific symptoms known. There are no specific symptoms
Eye contact	known.

4.3. Indication of any medical attention and special treatment needed Information to be

given to the doctor	Treat symptomatically.
Special treatments	Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Fire extinguishers

Suitable extinguishing agents	Extinguish with foam, carbon dioxide, dry powder or water fog.
Unsuitable extinguisher substances	Do not use water jet to extinguish the fire, in case the fire spreads.

5.2. Special hazards arising from the substance or mixture Special hazards

	Not known.
Harmful combustion products	A complex mixture of airborne solids, liquids and gases can be released. Carbon dioxide (CO ₂). Carbon monoxide (CO). Unidentified organic or inorganic compounds. Sulfur. Calcium.

5.3. Advice for firefighters

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

During fire fighting preservative to be taken measures Although this product does not catch fire easily, it is flammable. Refer to Section 7 for proper handling and storage. In case of insufficient ventilation, wear necessary respiratory equipment. Dispose of fire debris and contaminated fire extinguishing water in accordance with legal regulations. No action should be taken without proper training or any personal hazard.

For firefighters special protective equipment Positive pressure self-contained breathing apparatus and suitable protective clothing get dressed. Use suitable protective equipment for surrounding materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions Make sure procedures and emergency training for on-site cleaning and disposal are in place. No action should be taken without proper training or any personal hazard. Do not smoke, use fire, sparks or other sources of ignition near the spill. Wear protective clothing as shown in Section 8 of this Safety Data Sheet.

Emergency personnel for those who are not Necessary precautions should be taken so that personnel who do not have proper training do not interfere.

For emergency responders Wear protective clothing as shown in section 8 of this safety data sheet. NOTICE: Report spillage to local authorities, as appropriate or necessary. Stop the source of the leak if it can be done without risk. Limit the spill to prevent further contamination of the soil, surface or underground water. Clean up the spilled material as soon as possible, following the precautions in the Exposure Controls / Personal Protection section. Use non-flammable absorbent materials or appropriate techniques such as pumping. Whenever possible or see fit, dig out the contaminated soil from the area. Place contaminated materials in disposable containers and dispose of them in accordance with regulations. If a heated substance is spilled, Allow to cool before handling with disposal methods. Proper ventilation should be provided.

6.2. Environmental measures

Environmental measures Apply appropriate protective measures to prevent spilled material from entering water sources, drains, drains, soil.

6.3. Methods and materials for containment and cleaning

Spill removal methods Large spills: Stop leak if not at risk. Leak sources take away. Approach with the wind behind you. Prevent from entering drains, water sources, basements or confined areas. Wash the spillage in a waste water treatment facility or proceed as follows. Collect spills with non-flammable, absorbent material and store in packaging according to legal regulations. Dispose of via a licensed waste disposer. Contaminated absorbent material may present hazard similar to spilled product. For small spills: Stop leak if not at risk. Remove sources of leak from area. Absorb with inert dry material and place in a suitable waste disposal container. Dispose through a licensed waste disposal contractor.

6.4. References to other sections

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

References to other sections For personal protection see section 8. For waste disposal, see Section 13. See Section 1 for emergency contact information. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. See Section 7 for more information on safe handling.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Usage precautions Avoid contamination of soil or discharge of this material into sewers and water. For proper personal protection use protective equipment as shown in section 8 of this safety data sheet. Good ventilation should be provided in the working environment and inhalation of the vapor generated during use should be avoided.

Contact with the skin should be avoided and hygienic rules should be applied.
Contact with eyes should be avoided. Glasses or face masks should be used to prevent eye contact.

When using, avoid eating, drinking and smoking. Use disposable clothing. Static hazard: Electrostatic charge may accumulate in this material while working on it. Bonding or grounding may be required to minimize this risk. Review all processes that have the potential to generate and collect electrostatic charges and / or flammable atmospheres and follow relevant mitigating practices.

Advice on general occupational hygiene Do not eat, drink or smoke anything while using this product. Eye wash units and emergency shower facilities should be available when working with this product. Good personal hygiene procedures should be followed.

7.2. Conditions for safe storage, including any incompatibilities

Storage measures The container is not designed to contain pressure. Do not apply pressure to empty the container, otherwise it may rupture with explosion. Empty containers contain product residue and can be dangerous. Do not pressurize, cut, weld, solder, puncture, grind or expose these containers to heat, flame, sparks, static electricity, or other sources of ignition. Containers should be completely emptied and disposed of properly.

Storage class Chemical storage.

7.3. Specific end use (s)

Specific end use (s) The identified uses for this product are detailed in Section 1.2. It should be used as specified in the product data sheet.

Directions for use

SECTION 8: Exposure Controls / personal protection

8.1. Control parameters

Occupational exposure limits

Distillates (petroleum), hydrogen treated heavy paraffinic

Oil mist: TWA: 5 mg / m³ (ACGIH). In no case should this limit be exceeded or, if more restrictive, the local limit used.

Highly refined mineral oil (C15-C50)

Base Oil; TWA: 5 mg / m³, ACGIH (United States) Base oil:
ACGIH, STEL: 10 mg / m³

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

Content notes	No other information is available.
Biological limit values	No other information is available.
DNEL	No other information is available.
DMEL	No other information is available.
PNEC	No other information is available.

Highly refined mineral oil (CAS: 64742-01-4)

Content notes Oil mist TWA: 5 mg / m3 (ACGIH).

8.2. Exposure controls Protective

equipment

Proper engineering controls

Consider the potential risks of this substance (see Section 2), appropriate exposure limits, work activities and other substances in the workplace when determining engineering controls and selecting personal protective equipment. If engineering controls and work practices are not sufficient to prevent exposure to harmful levels of this substance, the use of personal protective equipment specified in this section is recommended. The user must read and understand all instructions and restrictions supplied with the equipment, although protection is usually provided for a limited time or under certain conditions. Make sure that the ventilation is good. Eye / face wash units and safety showers must be installed close to the work area to be used in case of emergency, injury and exposure.

Personal protection Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

Eye / Face protection Safety glasses or face shield against splashes of chemicals. Use protective

Hand protection gloves.

Other skin and body protection Health Avoid contact with skin.

measures Good personal hygiene procedures should be followed.

Respiratory system preservation If there is potential to exceed exposure limits, wear appropriate respiratory protection.

Thermal damages If there is danger of contact with hot product, all protective equipment suitable for use with high temperatures should be used.

Environmental exposure controls Compliance of ventilation emissions and work process equipment with environmental protection legislation requirements should be checked.

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties Appearance

Liquid.

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

Color	Brownish.
Smell	Characteristic.
Odor threshold	There is no specific test data available.
pH	Scientifically unjustified.
Melting point / freezing point	There is no specific test data available.
Initial boiling point and boiling range	There is no specific test data available.
Flash point	> 220 ° C Cleveland open cup. There is no specific test data available. There is no specific
Evaporation rate	test data available. There is no specific test
Evaporation factor	data available. There is no specific test data
Flammability (solid, gas)	available.
Upper / Lower flammability or explosive limits	
Other flammability	There is no specific test data available. There is
Vapor pressure	no specific test data available. There is no
Vapor density	specific test data available. There is no specific
Relative density	test data available. ~ 0.93 g / ml
Volumetric density	
Resolution (s)	It is insoluble in water.
Partition coefficient	There is no specific test data available. There is
Self ignition temperature	no specific test data available.
Decomposition temperature	There is no specific test data available. min.
Viscosity	18.5 cSt @ 100 ° C
Explosive properties	There is no specific test data available. It is
Explosive under the influence of flame	not considered explosive.
Oxidizing properties	Not known.
Descriptions	No other information is available.
9.2. Other informations	
Other informations	Required information is not available.
Refractive index	There is no specific test data available. There is
Particle size	no specific test data available.

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

Molecular weight	There is no specific test data available. There is
Volatility	no specific test data available. There is no
Saturation concentration	specific test data available. There is no specific
Critical temperature	test data available. There is no specific test data
Volatile organic compound	available.

SECTION 10: Stability and reactivity

10.1. Reaction

Reaction With strong acids or with chlorate, nitrate, peroxide, etc. May react with strong oxidizing chemicals such as.

10.2. Chemical stability

Stability This substance is considered stable under normal environmental conditions and under the prescribed storage and handling conditions.

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions Hazardous reactions will not occur under normal conditions of storage and use.

10.4. Conditions to avoid Conditions to avoid Not

available.

10.5. Incompatible materials Materials to avoid Not

available.

10.6. Hazardous decomposition products

Hazardous decomposition products Not known.

SECTION 11: Toxicological information

11.1. Information on toxicological effects Toxic

effects The information given is based on the data of the components and similar products.

Other health effects The information given is based on the data of the components and similar products.

Acute toxicity - oral Summary

The information given is based on the data of the components and similar products. The information

Notes (oral LD₅₀) given is based on the data of the components and similar products.

Acute toxicity - dermal Summary

The information given is based on the data of the components and similar products. The information

Notes (dermal LD₅₀) given is based on the data of the components and similar products.

Acute toxicity - inhalation

Summary The information given is based on the data of the components and similar products. The information

Notes (inhalation LC₅₀) given is based on the data of the components and similar products.

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

Skin corrosion / irritation

Summary The information given is based on the data of the components and similar products. The information given is based on the data of the components and similar products. The information given is based on the

Skin corrosion / irritation data of the components and similar products. The information given is based on the data of the

Animal data components and similar products. The information given is based on the data of the

Human skin model test Extreme similar products. The information given is based on the data of the components and

pH similar products.

Serious eye damage / irritation

Summary The information given is based on the data of the components and similar products. The information

Serious eye damage / irritation given is based on the data of the components and similar products.

Respiratory sensitization

Summary The information given is based on the data of the components and similar products. The information

Respiratory tract sensitization given is based on the data of the components and similar products.

Skin sensitization

Summary The information given is based on the data of the components and similar products. The information

Skin sensitization given is based on the data of the components and similar products.

Germ cell mutagenicity

Summary The information given is based on the data of the components and similar products. The information

Genotoxicity - in vitro given is based on the data of the components and similar products. The information given is based on the

Genotoxicity - in vivo data of the components and similar products.

Carcinogenicity

Summary The information given is based on the data of the components and similar products. The information

Carcinogenicity given is based on the data of the components and similar products. The information given is based on the

Target for carcinogenicity organs data of the components and similar products.

IARC carcinogenicity

The information given is based on the data of the components and similar products. The information

NTP carcinogenicity

given is based on the data of the components and similar products.

Reproductive toxicity

Summary The information given is based on the data of the components and similar products. The information

Reproductive system toxicity fertility given is based on the data of the components and similar products.

Reproductive system toxicity developmental

The information given is based on the data of the components and similar products.

Specific target organ toxicity - single exposure

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

Summary	The information given is based on the data of the components and similar products. The information
BHOT- single exposure	given is based on the data of the components and similar products. The information given is based on the
target organs	data of the components and similar products.
<u>Specific target organ toxicity - repeated exposure Summary</u>	
	The information given is based on the data of the components and similar products.
BHOT- repeated exposure	The information given is based on the data of the components and similar products.
Target organs	The information given is based on the data of the components and similar products.
<u>Aspiration hazard</u>	
Summary	The information given is based on the data of the components and similar products. The information
Aspiration hazard	given is based on the data of the components and similar products.
<u>Toxicokinetics</u>	
General information	The information given is based on the data of the components and similar products. The information
Breathing	given is based on the data of the components and similar products. The information given is based on the
Swallowing	data of the components and similar products. The information given is based on the data of the
Contact with skin	components and similar products. The information given is based on the data of the components and
Eye contact	similar products. The information given is based on the data of the components and similar products.
Acute and chronic health hazards	The information given is based on the data of the components and similar products.
Contact ways	The information given is based on the data of the components and similar products.
Target organs	The information given is based on the data of the components and similar products.
Medical symptoms	The information given is based on the data of the components and similar products.
Medical opinions	The information given is based on the data of the components and similar products.

Toxicological information on ingredients

Distillates (petroleum), hydrogen treated heavy paraffinic

Acute toxicity - oral

Notes (oral LD₅₀) LD₅₀> 2000 mg / kg, Oral,

Acute toxicity - dermal

Notes (dermal LD₅₀) LD₅₀> 2000 mg / kg, Dermal,

Carcinogenicity

Summary The base oils in the product contain less than 3% DMSO according to IP 346.

Highly refined mineral oil

SECTION 12: Ecological information

Ecotoxicity This substance is not expected to be harmful to aquatic organisms. The product has not been tested. The expression is derived from the properties of each component.

Ecological information on ingredients

Distillates (petroleum), hydrogen treated heavy paraffinic

Ecotoxicity May cause harm to aquatic organisms. Spillages create a film layer on the water surface and prevent oxygen transfer.

12.1. Toxicity

Toxicity This substance is not expected to be harmful to aquatic organisms. The product has not been tested. The expression is derived from the properties of each component.

Acute aquatic toxicity

Summary The information given is based on the data of the components and similar products. The information

Acute toxicity - fish given is based on the data of the components and similar products. The information given is based on the

Acute toxicity - aquatic invertebrates data of the components and similar products.

Acute toxicity - aquatic plants The information given is based on the data of the components and similar products. The information

Acute toxicity microorganisms given is based on the data of the components and similar products.

Acute toxicity - terrestrial organisms The information given is based on the data of the components and similar products.

Chronic aquatic toxicity

Summary The information given is based on the data of the components and similar products. The information

Chronic toxicity- in fish early life stage given is based on the data of the components and similar products.

Short term toxicity - embryo and early larval stages The information given is based on the data of the components and similar products.

Chronic toxicity- aquatic invertebrates The information given is based on the data of the components and similar products.

Toxicity to soil The information given is based on the data of the components and similar products. The information

Toxicity to terrestrial plants given is based on the data of the components and similar products.

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

12.2. Persistence and degradability

Persistence and degradability	The information given is based on the data of the components and similar products. The information
Phototransformation	given is based on the data of the components and similar products. The information given is based on the
Stability (hydrolysis)	data of the components and similar products. The information given is based on the data of the
Biodegradation	components and similar products. The information given is based on the data of the components and
Biological oxygen demand	similar products. The information given is based on the data of the components and similar products.
Chemical oxygen demand	

Ecological information on ingredients

Distillates (petroleum), hydrogen treated heavy paraffinic

Biodegradation	Not expected to be readily biodegradable.
-----------------------	---

12.3. Bioaccumulative potential

Bioaccumulative potential	The information given is based on the data of the components and similar products. There is no specific test
Partition coefficient	data available.

Ecological information on ingredients

Distillates (petroleum), hydrogen treated heavy paraffinic

Bioaccumulative potential	Potentially bioaccumulating.
----------------------------------	------------------------------

12.4. Mobility in soil

Mobility	The information given is based on the data of the components and similar products. The information
Adsorption / desorption coefficient	given is based on the data of the components and similar products.
Henry's law constant	The information given is based on the data of the components and similar products. The information
Surface tension	given is based on the data of the components and similar products.

Ecological information on ingredients

Distillates (petroleum), hydrogen treated heavy paraffinic

Mobility	It is liquid in most environmental conditions. It floats on water. Groundwater may become contaminated if it spreads to the soil.
-----------------	---

12.5. Results of PBT and vPvB assessment

PBT and vPvB results of the assessment	The product does not contain any substances classified as PBT or vPvB.
---	--

12.6. Other adverse effects Other

adverse effects	The information given is based on the data of the components and similar products.
------------------------	--

Part I
SAFETY DATA SHEET
MAXIMARINE CYL 70

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

SECTION 13: Disposal considerations

13.1. Waste treatment methods General

information

Waste generation should be minimized or avoided wherever possible.

Waste treatment methods

Wastes, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated appropriate containers and labeled according to their contents. Collect waste and place it in suitable waste disposal containers and seal tightly. Dispose of waste in a licensed waste disposal facility in accordance with the requirements of the local Waste Disposal Authorities.

Waste class

Waste code classification should be carried out according to the European Waste Catalog (EWC).

SECTION 14: Transport information

General

It was not edited.

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class (es)

There is no required transport warning sign.

14.4. Packing group

Not applicable.

14.5. Environmental damages

Environmentally harmful / marine pollutant

Not applicable.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code

MARPOL 73/78 Annex II and IBC

Not applicable.

pouring by code

transportation

SECTION 15: Regulatory information

15.1. Safety, health and environmental legislation specific for the substance or mixture

National regulations

Republic of Turkey Ministry of Environment and Urbanization, Regulation on Classification, Labeling and Packaging of Substances and Mixtures, dated 11 December 2013 and numbered 28848.
Republic of Turkey Ministry of Environment and Urbanization Regulation on Safety Data Sheets Regarding Hazardous Substances and Mixtures

EU legislation

Commission Regulation (EU) No 453/2010 of 20 May 2010.
