

Cam Suyu Antifrizi

Concentrated Washer Fluid Antifreeze

Description

It is a concentrated washer fluid antifreeze containing detergent and ethanol, formulated to prevent washer fluid and system from freezing. It does not contain methanol.

Application

It is used all kind of vehicles and recommended below mixture ratio. The freezing point of product in pure state is -45 °C; it decreases to -15 °C when diluted with an equal amount of water. In summer, add 25% antifreeze to the washer fluid for good washing performance.

Benefits

- Enables washer fluid to resist freezing.
- Enables windshield and windows from icing.
- Removes dirt, mud, oil, fly and plant residuals on glasses.
- Appearance is clear after using.

Typical Specifications*

Density, @ 15°C g/ml	ASTM 4052	0.89
Flash Point COC, °C	ASTM D 92	-
Freezing Point, °C	ASTM D 1177	-45
1/0		-28
2/1		
Boil Point, °C	ASTM D 1120	-
%100		
pH, 20°C %100	ASTM D 1287	9.43

* Values are changeable according to production.

Packing

Plastic	500 ml, 1 lt, 4 lt
