

Kauçuklu Gres-3

Calcium Soap Automotive Grease

Description

It is water repellent grease with long fibers, manufactured by quality base oils and performance promoting additives.

Application

It is developed for journal and ball bearings operating under light and medium loads with medium and high speed.

Benefits

- Reduces consumption, thanks to its fiber structure and adhesion onto the metallic surfaces.
- Maintains its integrity by preventing dissolution of the grease.
- Ensures reduction in cost where the operation conditions are not severe.
- Prevents the system against rusting and corrosion.

Typical Specifications*

NLGI	-	3
Soap Type	-	Calcium
Penetration 25°C, worked	ASTM D-217	256
Drop Point, °C	ASTM D-566	100

* Values are changeable according to production.

Packing

Drum	55 kg, 180 kg
