

# MAXIMA 5W-20

Advanced Technology Fully Synthetic Engine Oil

## Definition

Maxima 5W-20 is a fully synthetic, advanced performance engine oil formulated in accordance with new generation engine technology.

## Places of Use

Maxima 5W-20 has been developed to meet the latest standards required by modern vehicle engines.

## Features and Benefits

- Increases engine performance and provides fuel economy by reducing friction.
- Thanks to its enhanced oxidation stability, it delays the aging of the oil, protects the engine, and provides a longer change interval.
- Extends engine life by minimizing cold starting wear.
- Does not create residue, keeps the engine clean.

## Specifications and Approvals
