

MAXIMA VSA 0W-20

Fully Synthetic Engine Oil

Definition

Maxima VSA 0W-20 is a fully synthetic, advanced performance engine oil formulated in accordance with the latest engine technology.

Places of Use

Maxima VSA 0W-20, with its synthetic formula, has been developed for ACEA C5 performance level motor oil. It has been developed for all passenger and light commercial vehicles with diesel particle filter and gasoline vehicles with catalytic converter.

Features and Benefits

- It increases engine performance and provides fuel economy by reducing friction with its superior technology.
- Thanks to its enhanced oxidation stability, it delays the aging of the oil, protects the engine, and provides a longer change interval.
- Provides protection by adapting to different temperatures.
- Extends engine life by minimizing cold starting wear.
- Does not create residue, keeps the engine clean.
